

# OLIVE OIL

## *for Peace*

**Purchase**

## **EXTRA VIRGIN OLIVE OIL from Palestine**

**The Jewish-Palestinian Solidarity Committee of Jewish Voice for Peace (JVP)** is pleased to once again offer for sale bottles of high quality Palestinian olive oil.

This extra virgin olive oil was harvested and produced in the Palestinian village of Qaffin, now closed off from its fields by Israel's Separation Wall. The Wall is being built deep within Palestine and has devastated the lives of its residents. Closures and confiscation of agricultural land have prevented farmers from harvesting and distributing their food products. Your purchase, in addition to helping to alleviate the severe economic hardship and malnutrition rampant in the West Bank and Gaza, is a heartfelt statement of political support and solidarity at this critical time.

**Proceeds from olive oil sales support the fair trade prices paid to the farmers by Sindyanna of Galilee, a member of the International Fair Trade Association.** Sindyanna is a community organization of Israeli Arab and Jewish women who market and export Palestinian agricultural products. **All additional sale proceeds will go to the Palestinian Small Business Loan Program for Women**, a new project of the United Palestinian Appeal. Inc. This project will provide loans over a

ten-year period to selected women to develop domestic skills such as poultry farming or baking into small businesses that will support their families and benefit their communities.

**Donations to Refuser Solidarity Network (RSN):** This year we are asking for additional donations to help the Refuser Solidarity Network. RSN is an international network of individuals and organizations providing material, political and moral support to all Israelis – soldiers, students, and others – who refuse to support the Occupation. RSN sponsors tours and speaking events that bring the refuser message to hundreds of thousands of people across the world. It raises funds to support the refusers, and generates thousands of letters protesting their imprisonment. Israeli refusers are an essential part of the non-violent resistance to the Occupation. Your contribution is greatly appreciated.

Jewish Voice for Peace (JVP) is a diverse and democratic community of activists inspired by Jewish tradition to work together for peace, social justice and human rights. The Jewish Palestinian Solidarity Committee of JVP is distributing the olive oil and providing accompanying information. To learn more about JVP and the Jewish Palestinian Solidarity Committee, please visit our website at [www.jewishvoiceforpeace.org](http://www.jewishvoiceforpeace.org)

## **SUPPORT PALESTINIAN FARMERS**
